## Wellington Park Bridge + Boardwalk Addition

### LOCATION

Wellington Park  
Lexington, KY

### CONTACT/OWNER

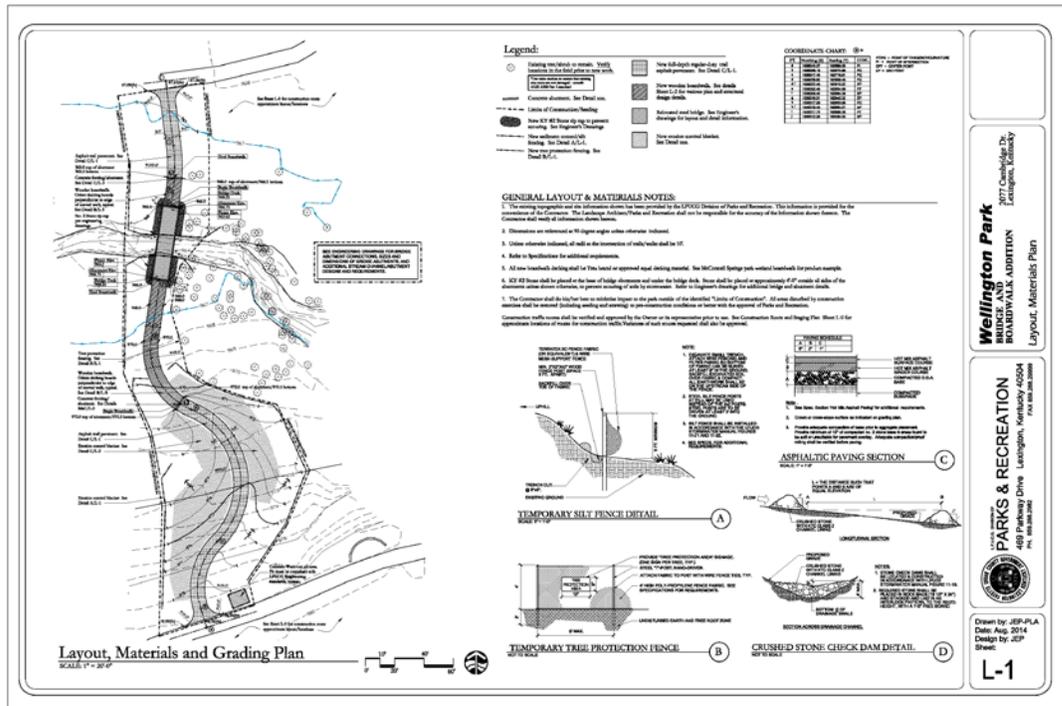

Michelle Kosieniak  
Division of Parks &  
Rec.

### CONSTRUCTION COST

Est. \$62,000

### COMPLETION

Construction  
documents complete

### Project Description:

PLA was brought into the bridge and boardwalk mid-way through the schematic design/ design development (DD) phases. Services rendered include completing DD drawings and producing a set of construction documents for bidding.

PLA worked in tandem with Vision Engineering to develop bridge abutment and boardwalk connections and landscape treatments in the floodplain area. As a result of PLA's work the quantity of boardwalk was reduced by nearly half saving Parks and Recreation additional site-work expenses. Silt-control and tree protection were also significant elements of the design.
